Florida teachers must take gifted endorsement courses before adding the endorsement on to an existing teaching certificate. **SUNCOAST EDUCATION** (formerly Level 7 Learning) employs a low-cost program (lowest in the entire state!) which offers Florida teachers access to high quality, rigorous, relevant and scholarship-driven gifted professional development. The program is designed to work with an institution's or district's eligible current "add-on endorsement," and to provide completely online endorsement instruction. Suncoast enables qualified teachers to teach students who are gifted by providing flexible coursework, catering to the specific needs of each teacher. Suncoast Instructors are available via email, phone, text and even video chat! We are here for you and want to give you the training you need to teach Florida's gifted children. Join us!
